

COLLEGE OF ENGINEERING
LAMAR UNIVERSITYTM
Golden Triangle Industries
Lamar Engineering Partnership

The Lamar University Golden Triangle Industries/Lamar University Engineering Partnership invites you to attend a 4-day seminar. Please forward this information to any colleagues you feel might be interested in the program.

David F. Coble, MS CSP

OSHA 30 Hour / Hazard Recognition Course

January 26th – January 29th, 2015

Monday – Thursday, 7:00 am – 5:00 pm

Breakfast will begin at 7am and lunch will be provided

SEMINAR HOURS:

8am-5pm

LOCATION:

Lamar University Reception Center

Directions: <http://advancement.lamar.edu/maps>

The purpose of this course is to help attendees find and use OSHA standards and interpretations, industry consensus standards, and other safety and health documents. This course includes discussions and team and individual activities related to hazard identification, management practices, and standards application. Course evaluations consistently state that David's pictures and videos, training techniques, ability to answer questions, and intimate knowledge of how OSHA works makes this course unique.

This course meets OSHA's agenda requirements and attendees who complete the course will receive the OSHA 30 hour card.

Topics include:

<ul style="list-style-type: none">• Introduction to OSHA and Standards• Walking and Working Surfaces• Means of Egress• Fire Protection• Scaffolds• Fall Protection• Eyewashes and Showers• Aerial Lifts• Materials Handling• Hazardous Materials	<ul style="list-style-type: none">• Personal Protective Equipment• Machine Safety• Control of Hazardous Energy• Permit-Required Confined Spaces• Hazard Communication• Hearing Conservation• Industrial Hygiene Standards Subpart Z• OSHA's General Duty Statute• OSHA's Compliance Directives• OSHA's Letters of Interpretation
