POSITION ANNOUNCEMENT DEPARTMENT OF INDUSTRIAL ENGINEERING – LAMAR UNIVERSITY

Lamar University, Department of Industrial Engineering invites applications for a non-tenure track instructor position in Industrial Engineering and Industrial Technology starting Fall Semester 2013.

Candidates are expected to have an MS in Industrial Engineering (PhD preferred) or a closely-related field. Candidates must have expertise and teaching experience in statistics, economics, quality, Lean, Six Sigma, work design, manufacturing, or human factors, ergonomics, and safety to be considered. Candidates must have excellent communication skills, ability to work effectively in teams, and to teach online courses. Preference will be given to candidates who currently have their PhD, demonstrate excellence in university teaching, and have three or more years of relevant industrial experience. Lamar University faculty members are expected to recruit and advise students, perform administrative tasks required to maintain ABET accreditation, and contribute quality service at the professional level.

Lamar's Industrial Engineering Department has research programs in human factors and ergonomics, logistics, environmental science, design and manufacturing, micro-manufacturing, operations research, logistics, and engineering education. The Center for Transportation/Ports and Waterways is housed in the department. The department participates in the Gulf Coast Hazardous Substance Research Center and the Texas Air Research Center. The department offers an ABET accredited undergraduate industrial engineering program as well as an undergraduate industrial technology program, and masters and doctoral programs.

The additional faculty position created for the Department of Industrial Engineering is the direct result from increases in enrollment, research, and other scholarly activities.

For full consideration submit application materials by 7/5/2013. Applicants should submit a one-page letter of application, describing your research interests, personal statement of teaching philosophy, teaching experience, and qualifications for this position, curriculum vita, and contact information of three references to Dr. Brian Craig, Chair, Department of Industrial Engineering, c/o Human Resources, P.O. Box 11127, Beaumont, TX 77710
